Statement Regarding Safe Harbor For Forward-Looking Statements

This presentation contains forward-looking statements, that is, information related to future, not past, events. Such statements generally include the words “believes,” “plans,” “intends,” “targets,” “will,” “expects,” “suggests,” “anticipates,” “outlook,” “continues,” or similar expressions. Forward-looking statements include, without limitation, expected financial positions; results of operations; cash flows; financing plans; business strategy; operating plans; capital and other expenditures; competitive positions; growth opportunities for existing products; benefits from new technology and cost reduction initiatives, plans and objectives; and markets for securities. For these statements, Grace claims the protection of the safe harbor for forward-looking statements contained in Section 27A of the Securities Act and Section 21E of the Exchange Act. Like other businesses, Grace is subject to risks and uncertainties that could cause its actual results to differ materially from its projections or that could cause other forward-looking statements to prove incorrect. Factors that could cause actual results to materially differ from those contained in the forward-looking statements include, without limitation: risks related to foreign operations, especially in emerging regions; the cost and availability of raw materials and energy; the effectiveness of its research and development and growth investments; acquisitions and divestitures of assets and gains and losses from dispositions; developments affecting Grace’s outstanding indebtedness; developments affecting Grace’s funded and unfunded pension obligations; its legal and environmental proceedings; uncertainties that may delay or negatively impact the separation transaction or cause the separation transaction to not occur at all; uncertainties related to the company’s ability to realize the anticipated benefits of the spin-off; the inability to establish or maintain certain business relationships and relationships with customers and suppliers or the inability to retain key personnel; costs of compliance with environmental regulation; and those additional factors set forth in Grace’s most recent Annual Report on Form 10-K, quarterly report on Form 10-Q and current reports on Form 8-K, which have been filed with the Securities and Exchange Commission and are readily available on the Internet at www.sec.gov. Reported results should not be considered as an indication of future performance. Readers are cautioned not to place undue reliance on Grace’s projections and forward-looking statements, which speak only as the date thereof. Grace undertakes no obligation to publicly release any revision to the projections and forward-looking statements contained in this announcement, or to update them to reflect events or circumstances occurring after the date of this presentation.

Non-GAAP Financial Terms

In this presentation, Grace presents financial information in accordance with U.S. generally accepted accounting principles (U.S. GAAP), as well as the non-GAAP financial information described in the Appendix. Grace believes that this non-GAAP financial information provides useful supplemental information about the performance of its businesses, improves period-to-period comparability and provides clarity on the information management uses to evaluate the performance of its businesses. In the Appendix, Grace has provided reconciliations of these non-GAAP financial measures to the most directly comparable financial measure calculated and presented in accordance with U.S. GAAP. These non-GAAP financial measures should not be considered as a substitute for financial measures calculated in accordance with U.S. GAAP, and the financial results calculated in accordance with U.S. GAAP and reconciliations from those results should be evaluated carefully.

- Received \$761M in cash from GCP spin-off and divestitures year-to-date
- Paid down \$600M of term loans year-to-date
- Stock buy back of \$35M or 472,000 shares year-to-date
- Declaring quarterly cash dividend of \$0.17 per share
- Closed acquisition for BASF polyolefin catalyst business

Note: The prior year quarter (2Q15) is on a discontinued operations basis (adjusting for the separation of GCP Applied Technologies Inc.) and includes approximately \$9M of additional operating costs.

The Leader in Polyolefin Catalysts and Licensing

#1 in Polyolefin Catalysts

#2 in Polypropylene Process
Technology Licensing

Broadest Catalysts Portfolio

- Gas phase and bulk process PP and PE catalysts
- Sixth-generation non-phthalate PP catalysts
- Catalysts optimized for UNIPOL® PP process
- Chromium PE catalysts
- Custom Ziegler-Natta PE and PP catalysts
- Custom Single-Site PE and PP catalysts

Global Catalysts Manufacturing

Flexibility, capability, process knowledge, and capacity

Acquisition Brings Strong Synergies

- Creates the world's broadest portfolio of polypropylene and polyethylene catalysts technologies
- Strengthens our ability to innovate as a strategic partner to our customers
- Well-defined cost and operational synergies, increasing operational flexibility to optimize global manufacturing network
- Expect to achieve full synergies by end of 2018

Non-GAAP Financial Terms

Adjusted EBIT means income from continuing operations attributable to W. R. Grace & Co. shareholders adjusted for interest income and expense; income taxes; costs related to Chapter 11, and legacy product and environmental; restructuring and repositioning expenses and asset impairments; pension costs other than service and interest costs, expected returns on plan assets, and amortization of prior service costs/credits; income and expense items related to divested businesses, product lines, and certain other investments; gains and losses on sales of businesses, product lines, and certain other investments; third-party acquisition-related costs; and certain other unusual or infrequent items that are not representative of underlying trends.

Adjusted EBITDA means Adjusted EBIT adjusted for depreciation and amortization.

Adjusted Free Cash Flow means net cash provided by or used for operating activities from continuing operations minus capital expenditures plus cash flows related to Chapter 11, and legacy product and environmental; cash paid for restructuring and repositioning; capital expenditures related to repositioning; cash paid for third-party acquisition-related costs; and accelerated payments under defined benefit pension arrangements.

Adjusted Earnings Per Share (EPS) means diluted EPS from continuing operations adjusted for costs related to Chapter 11, and legacy product and environmental; restructuring and repositioning expenses and asset impairments; pension costs other than service and interest costs, expected returns on plan assets, and amortization of prior service costs/credits; income and expense items related to divested businesses, product lines, and certain other investments; gains and losses on sales of businesses, product lines, and certain other investments; third-party acquisition-related costs; certain other unusual or infrequent items that are not representative of underlying trends; and certain discrete tax items.

Adjusted EBIT Return On Invested Capital means Adjusted EBIT (on a trailing four quarters basis) divided by the sum of net working capital, properties and equipment and certain other assets and liabilities.

Adjusted Gross Margin means gross margin adjusted for pension-related costs included in cost of goods sold.

Adjusted EBIT, Adjusted EBITDA, Adjusted EBIT Return On Invested Capital, Adjusted Gross Margin, Adjusted EPS and Adjusted Free Cash Flow do not purport to represent income or liquidity measures as defined under U.S. GAAP, and should not be considered as alternatives to such measures as an indicator of Grace's performance or liquidity.

Grace uses Adjusted EBIT as a performance measure in significant business decisions and in determining certain incentive compensation. Grace uses Adjusted EBIT as a performance measure because it provides improved period-to-period comparability for decision making and compensation purposes, and because it better measures the ongoing earnings results of its strategic and operating decisions by excluding the earnings effects of the Chapter 11 proceedings, legacy product and environmental matters, restructuring and repositioning activities, and divested businesses. Grace uses Adjusted EBITDA, Adjusted EBIT Return On Invested Capital, Adjusted Gross Margin, and Adjusted EPS as performance measures and may use these measures in determining certain incentive compensation. Grace uses Adjusted Free Cash Flow as a liquidity measure to evaluate its ability to generate cash to support its ongoing business operations, to invest in its businesses, and to provide a return of capital to shareholders. Grace also uses Adjusted Free Cash Flow as a performance measure in determining certain incentive compensation.

These measures are provided to investors and others to improve the period-to-period comparability and peer-to-peer comparability of Grace's financial results, and to ensure that investors and others understand the information Grace uses to evaluate the performance of its businesses. They distinguish the operating results of Grace's current business base from the costs of Grace's Chapter 11 proceedings, legacy product and environmental matters, restructuring and repositioning activities, and divested businesses. These measures may have material limitations due to the exclusion or inclusion of amounts that are included or excluded, respectively, in the most directly comparable measures calculated and presented in accordance with U.S. GAAP and thus investors and others should review carefully the financial results calculated in accordance with U.S. GAAP.
